

Chimaera Financial Group Implements DEXSAR™

DEXSAR provides Chimaera a cost-effective solution to securely exchange confidential documents with its clients

HERNDON, Va., January 15, 2008 — Digital Now Inc., a pioneer in digital asset management software and online solutions for businesses, associations and consumers announced today Chimaera Financial Group, a specialist financial services provider operating in the areas of corporate finance and wealth management, has chosen DEXSAR to securely exchange confidential documents with its clients.

“By implementing the DEXSAR solution not only are we able to rapidly exchange confidential information with our clients,” stated Sal Catalano, Chairman, Chimaera Financial Group “but also we anticipate saving 20% in our operating costs associated with delivering notices, statements and other confidential documents.”

“As our world continues to become more digitally-based, we need to make sure to safeguard and maintain our digital estates,” said Gary Mueller, president and CEO of Digital Now. DEXSAR is the most secure solution available today that allows people to receive, exchange and manage digital information through a protected, trusted and easily accessible system.”

DEXSAR is an easy-to-use digital service developed by Digital Now to address the ever-growing need for protecting, maintaining and transmitting important digital documents and records, while allowing for convenient, around-the-clock access. The solution helps service firms deliver information such as financial statements, tax and accounting records, and medical records to both consumers and businesses through a protected and trusted account network. Businesses use the service to protect, manage and share critical digital assets with clients and employees

About Digital Now

[Digital Now Inc.](#) is a pioneer in digital estate management with a strong history of technological innovation. Digital Now delivers a suite of services called DEXSAR providing a trusted and protected account network for private and personal information. Through DEXSAR, a variety of professional service, member-based and academic organizations help clients, members and students manage and protect their confidential digital information.
